## DETAILED ACTION

### *Election/Restrictions*

Applicant's election of Invention I - Species A in the replies filed on 12 November 2004 and 7 January 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Claims 22-23 are withdrawn because they are drawn to the non-elected invention; claims 4,5,12, and 13 are withdrawn because they are drawn to a non-elected species.

### *Double Patenting*

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 1-3, 9, 10, and 17 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1,2,9,12, 30, and 32 of prior U.S. Patent No. 6,665,981 B1. This is a double patenting rejection.

Art Unit: 3643

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 6-8, 11, 14-16, and 18-21 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-3, 9, 10, and 17 of U.S. Patent No. US 6,665,981 B1. Although the conflicting claims are not identical, they are not patentably distinct from each other because both sets of claims disclose the same array of limitations with differing pendencies. It would have been obvious to one of ordinary skill in the art at the time of the invention to modify the method of the instant application to have all the limitations of the claims of US 6,665,981 B1 as an efficient, environmentally method of reseeding seagrass.

#### ***Allowable Subject Matter***

Claims 1-3, 6-11, and 14-21 are allowed over the art of record. Applicant is reminded that before an allowance can issue claims 4,5,12,13 and 22-32 must be cancelled.

Art Unit: 3643

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Anderson, Reilly, Bestmann ('131), Bestmann ('597), Bestmann ('954), JP8-84532, DE 4140933 A1, JP9-316851, JP2002-17167, JP2002-335783, and JP2002-330652 disclose in the prior art various aquatic plant holders. Dawes and Kellogg disclose in the art information about reseeding estuaries in Fla. Anderson ('521 A1) and Anderson ('193 A1) disclose pre-grant publications from the instant inventor with Anderson ('193 A1) being the instant application's pre-grant publication.
